Dear Mr. Sidamon-Eristoff:

Re: Record of Decision, Chemsol (Tang Realty)  
Piscataway Township, Middlesex County, New Jersey

This is to formally notify the United States Environmental Protection Agency that the New Jersey Department of Environmental Protection and Energy has evaluated the selected plan for the interim remedial action for the shallow ground water at the Chemsol Superfund Site and concurs with the remedy as stated in the Record of Decision.

This Record of Decision is for the initiation of remedial activities for the highly contaminated shallow ground water which will begin to control the spread of the plume. It is understood that a site-wide RI/FS will be conducted to deal with all contamination related to the site.

The components of the Record of Decision include:

- \* Pumping from three recovery wells;
- \* Treatment by air stripping, biological and carbon adsorption;
- \* Discharge to an on-site stream.

New Jersey fully appreciates the importance of the Record of Decision in the cleanup process and will continue to take all reasonable steps to ensure that the State's commitments in this area are met.

Sincerely,

Scott A. Weiner  
Commissioner
